CONSULTATION REQUEST CONFIDENTIAL

CONSULTATION SERVICES FOR TREE & SHRUB REQUIREMENTS:

(Commercial, residential & acreage)

If requesting our consultation services, your disclosure of the following expenditures will result in a prompt response to your project. With this information we will offer to size all your plant materials, delivery costs, installation costs for your softscape (*not paving stones, asphalt, ponds, etc.*).

Does your project require assistance with:

- **WHO** - our in-house services offer you choices of onsite visitation, remote recommendations via telephone, email or fax, or come for a nursery visitation. Sketches & measurements left with customer (includes travel time). We provide verbal and hand written recommendations
- **WHAT** - we provide guidance for yards, lake lots, acreages & commercial developments. You could self install with proper directions or employ our services or those of another contractor for about double the cost and perhaps a bit more.
- **WHEN** - We have our seasonal tasks when the business is involved in significant events such as harvesting and shipping. Outside of these times, we are able to offer you excellent timely service.
- **WHERE** - want to have a harmonious and functional setting, it comes down to planting the right plant in the right location for the right reason. Follow this guideline to best serve your requirements for function and beauty.
- **WHEN** - we dig spring and fall; planting can take place anytime until freeze up.
- **WHY** - our expertise will lead your project to your goals and with your input will be able to fulfill your long term expectations. There is an expression which emphasizes proper workmanship: "Plant a \$5.00 tree in a \$10.00 hole", do it right the first time.

LEVELS OF SERVICES OFFERED

- **DRAWINGS/SKETCHES** of your planting site.
- **LIST AND QUANTITIES** of recommended plants, shrubs & trees.
- **SITE** preparation considerations.
- **CARE** management plan and recommendations.
- **AGRO-FORESTRY** management plans for land owners seeking to enhance/restore/naturalize bluffs, forests and wildlife corridors and riparian areas.
- **RESTORATION** of wetland/riparian areas along rivers, streams and ponds.

- yes no - Completed - Characteristics of Trees & Shrubs

BUDGET CONSIDERATIONS: (OPTIONAL)

All projects require planning, if you wish to share the following estimates of your anticipated expenditures, we will provide you with further guidance.

Have you established a budget for your entire project? yes no

Budget Range? \$500-999 1,000-2,499 2,500-4999 5,000-9999 10,000+

Finances are in place for this entire project? yes no

Budget for tools; ie shovels, rakes, wheel barrows, water hoses, nozzles and reels?
\$ _____

Budget for top soil & mulch? \$ _____

Budget for trees? \$ _____

Budget for shrubs? \$ _____

Budget for turf/grass? \$ _____

Budget for delivery? \$ _____

- see our Shipping Calculator located on the website.

Budget for delivery of products? \$ _____

Budget for handling/unloading? \$ _____

Budget for tree & shrub installation? \$ _____

Budget for unforeseen additions? \$ _____

Budget for irrigation/installed? \$ _____

- We do not offer expertise on irrigation. This can evolve from a water can, hose with nice wands and hose reels, few simple drip irrigation lines, complicated timers, filters, injectors and perhaps require seasonal blow outs using air compressors prior to freezing conditions. When contemplating your requirements/obligations and the complexity involved with all the managed tasks, ask yourself what is the most important to the project? Nice or Need?

BUDGET FOR THIS PROJECT? \$ _____
